1984
INDEX TO VOLUME 46
NUMBERS ONE THROUGH EIGHT

This index includes everything published in *ABT* during 1984 (Volume 46), except filler material. Items have been cross-referenced for easy access.

Entries have been made in three categories: Subject, Title, and Author. All entries include one of the following key codes:

A—Article
E—Editorial
F—Feature
R—Review

A typical entry might be:

Zoos 5:555A

This entry would be in an article in issue number 5 on page 555.

Book reviews listed in the Subject index give the name of the author of the book, not of the reviewer, in parentheses. Initial articles (a, an, the) of book titles are not considered in arranging titles; therefore, the first substantive word is considered the first word of the title.

The index is alphabetical word-by-word. For example, "educational" would follow "education theory" and "genetics" would follow "genetic engineering."
